

RICK SNYDER
GOVERNOR

STATE OF MICHIGAN
DEPARTMENT OF ENVIRONMENTAL QUALITY
LANSING

C. HEIDI GRETHUR
DIRECTOR

January 31, 2018

Dear Interested Party:

Thank you for your interest regarding the Permit to Install applications submitted by Dearborn Industrial Generation, LLC, to the Michigan Department of Environmental Quality (MDEQ), requesting the installation of a new natural gas fired simple cycle turbine and an increase in the allowed formaldehyde emissions, for their existing facility located at 2400 Miller Road, Dearborn, Michigan.

As required in the state and federal regulations, the MDEQ held a public comment period that ended with a public hearing on January 16, 2018, on its proposed conditional approval of the permit. The Air Quality Division (AQD) received approximately 350 written comments during the public comment period and about 67 verbal comments were presented at the public hearing.

After careful consideration of the issues and pursuant to the delegation of authority from the Director of the MDEQ, I have approved Permit to Install No. 163-17 for the increase in allowed formaldehyde emissions with modifications made to the proposed permit.

Dearborn Industrial Generation, LLC has withdrawn Permit to Install Application No. 56-17 for the new natural gas fired simple cycle turbine. Therefore, the AQD has voided the application.

The Response to Comments (RTC) document provides our responses to comments received during the public comment period and at the public hearing regarding the requested formaldehyde increase and other facility related comments. Those comments related specifically to the new natural gas fired turbine were not included, since the company has withdrawn the application.

The RTC also identifies special conditions which have been modified in Permit to Install Application No. 163-17 and provides our rationale for modifying the proposed special conditions. The RTC document and the Permit Terms and Conditions are available at: <http://www.deq.state.mi.us/aps/cwerp.shtml>.

Please note that we are in the process of translating the RTC into Arabic and the translated document will be posted on our website within one week of the date of this letter.

Thank you for your input regarding our review of this permit application. If you have any questions, please contact Ms. Catherine Asselin, AQD, at 517-284-6786, or you may contact me.

Sincerely,

Lynn Fiedler, Director
Air Quality Division
517-284-6773
